

# Protect your reputation and the planet

**Simplify the way you manage your company obligations and communications to maintain happy stakeholders.**

INX InForm ensures critical obligations are met through assigning tasks to responsible people and using verifiers with escalation roles.

Designed to give clarity on your organisation's obligations, INX InForm also provides a single source of truth of tenement profiles and their conditions.

Our intelligent software records and classifies engagement in a communications register across emails, phone calls and social media, which allows your organisation to better understand how to manage and engage with your stakeholders.

From environmental obligations, tenement management to financial commitments, INX InForm ensures your obligations are tracked and met on time.
